Customer Communication & Relationship Management

As an Account Executive, I always aim to build trust and long-term relationships with clients. My role goes beyond simply responding to questions. I focus on educating customers, setting clear expectations, and ensuring they feel fully supported throughout the process.

Some examples of how I handle customer interactions:

- Proactive Updates (I regularly check in with customers to provide progress updates and reassure them that their requests are being handled).
- Clear Explanations (I take the time to explain important details, such as sourcing timelines, lead times, and order steps, so customers fully understand the process).
- Transparency in Pricing (I communicate pricing breakdowns, discounts, and deposit requirements clearly, ensuring no hidden surprises).
- Empathy & Support (I show genuine care in my communication *e.g., wishing safe travels, expressing gratitude, and using a supportive tone).
- Problem-Solving (When customers raise concerns, I address them with solutions and guidance, ensuring they feel confident moving forward).

Through this approach, I demonstrate that I am not only managing accounts, but also providing end-to-end support that makes customers feel valued, informed, and secure in their decisions.

Hi Nisa!
Thanks so much for your patience I have the sign off from my client to proceed with the Engagement ring and wedding band design, but for the male wedding band still on hold.

Can you tell me the next date your team member will come back to Bali? I want to source and pass you the pearl to use for the ring, but I still have to pick it up from Lombok. 15.49

[redacted]
You
$1700 (Rp14,492,500)
with LG Diamond

Approved but bride still had to confirm if she wants white gold or rose gold.... I should get confirmation by Monday. 15.50

Can you please let me know deposit and discount on Monday? Thank you and have a great weekend 15.50

Mon, 16 Jun

Morning [redacted],

Thank you.. I need to inform you, sourcing fancy stones, whether Lab Grown or natural diamonds, usually takes some time.
the lead time can be around 1 to 2 calendar months.

If you're okay with that, we can proceed with the next steps in parallel (placing the stone order while also waiting for your pearl to arrive).
However, I just want to make sure the pearl size won't differ too much from the peral we put on the Design 🙏 11.26

[redacted]
Can you please let me know deposit and discount on Monday? Thank you and have a great weekend

as for the quoted price, like I mentioned before, we'd like to giving you an extra discount (45% to 50%), bringing it to
$1700 (IDR 13,175,000) 😊

For the deposit as down payment, it would be 30%, which comes to IDR 3,952,500

Hi Nisa!

Just want to give you an update I should be able to mail you the pearls soon, my supplier has been away. So I am hoping you will receive before Jul 10. 13.42

And then can start production 13.43

Mon, 30 Jun

noted. Thanks for the update, [redacted] Looking forward to receiving the pearls soon 🙏 08.55

[redacted]
Hi Nisa!
Thank you for checking in, I'm in Lombok right now sourcing and should mail you options by Monday the latest. 17.47

great..
Looking forward to seeing the options, and safe travels in Lombok 🙏 18.07

For lab grown diaminda Nisa, does that mean with production the ring production timeline will finish by October 1?

The pearl you have is 6mm, which us quite small, the pearl size i was looking at was closer to 8mm-10mm. 12.21

Ideally, I would like to have everything completed by early September. But latest October 1st. 13.11

Once you confirm timeline I'm happy to share deposit 🙏 13.15

mmm.. If we can finalize everything today, we should actually be able to complete it earlier, around mid-August I think 17.35

honestly I'm a bit unsure, if the pearl size changes, we might need to recheck whether it will still fit the current design specs 17.36

ok then with that in mind, do you have an estimate on when your pearl might be available?
I think it will be better we start production once we've received it

I hope you can confirm a good source supplier and this does not delay production timeline. 17.13

totally understand your concern.. we'll do our best to move things forward without delay 17.26
